Our Vision

We are against the use of modern slavery or human trafficking in the production of our products. We actively look to find and eradicate these atrocious, illegal practices from our supply chains.

We want to achieve this goal through a holistic approach; where everyone in our company and in our supplier companies are committed to achieving this goal. We don't just want to follow the crowd, tick legal boxes or jump through legislative hoops. We want to be an industry leader in driving change from the very top of the supply chain, and we want to be in a position to help our customers and our suppliers to make the most ethical choices.

Green lip mussels.

Certifications - Ratings Key

- **The Marine Stewardship Council (MSC)** - By choosing our bluefish labelled products, you can be sure they are certified to the MSC Fisheries Standard, a science-based set of requirements for sustainable fishing.
- **Best Aquaculture Practice (BAP)** - The most trusted, comprehensive, and proven third-party aquaculture certification program.
- ▲ **The Aquaculture Stewardship Council (ASC)** - ASC standards for responsible aquaculture, addressing the key environmental impacts of farming fish & seafood.
- ◆ **Good Agriculture Practices (Global - G.A.P)** - The GLOBAL G.A.P. Aquaculture Standard sets criteria for legal compliance, food safety, worker occupational health and safety, animal welfare, and environmental and ecological care.
- * **Fisheries Improvement Projects (FIP)** - These are multi-stakeholder Initiatives that aim to improve a fishery towards sustainability and MSC certification.
